

## **Coffman Posts 2,000-Page Health Care Takeover Bill Online**

**(WASHINGTON, D.C)** - Rep. Mike Coffman (R-CO), posted the Democrats' 1,990-page, H.R. 3962 the Affordable Health Care for America Act, which has 72 hours to be read before a vote. He commented:

“As your Representative in Congress, and to provide you with transparency, I am posting the Democrat bill H.R. 3962 on my website. The almost 2,000-page bill amounts to the same government takeover of health care the American people rejected this summer, now it is twice as long. Just think, when Medicare and Medicaid were created in 1965, the bill’s legislation was less than 300 pages long. Today, those programs cost almost \$800 billion annually. What will this cost in 40 years?”
